Reviews of the Evil Kindling Hb by Robyn Sheffield

Doomblade

3.5 Stars

Ten years ago a fire swept through a house and killed two women. Today, there's another fire on the same street and another body is found. The remains of a vagrant are found as well as the headless mummified body of another woman.

Is there a connection between these deliberately set fires? Who is the headless woman ...where is her head? The vagrant was posed as though a suicide ... who wanted this man dead?

Detective Superintendent Mike Hallow and his team are called in to investigate. What they find is a large number of suspects.

The book was suspenseful, but seemed very heavy and slow to move forward. it's like putting

together a jigsaw puzzle and only placing one piece per day it becomes an endless endeavor.

I did like the main characters and I enjoyed some of their thought processes in solving this case.

My thanks to the author / Endeavor Press / NetGalley who provided a digital copy in exchange for an honest, unbiased review.

Darkraven

An interesting read with plenty of action. With suspects galore, this will definitely keep you guessing. Solid and well written book.
