As the middle sister in a family with three girls, Stevie Reel doesn't know much about boys, and that's always been just fine with her. But lately, things have been changing: kids at school are starting to pair up, and Owen, the new boy in her Earth Science class, seems to have his sights set on her.

The trouble is, Stevie doesn't want a boyfriend—she's not even sure that she's ready to have a boy friend. And her sisters, who know exactly where they stand on the issue of boys, are no help: Alex is too busy trying to orchestrate a perfect, Romeo-and-Juliet-style first kiss from her crush, Scott Towel, while Joey can't understand why anyone would prefer a boy over a frog, anyway.

If only figuring out boys were as easy as predicting the weather!

## Reviews of the **The Sisters Club: Cloudy with a Chance of Boys (Sisters Club Series)** by Jenna Lamia, Megan McDonald

I quite enjoyed this series. As the author of the Judy Moody and Stink books, Megan McDonald has already shown her grasp of elementary age children and how they think and act. This third book in the Sisters Club series shows that she grasps equally well the challenges of middle school and the changes that make this time of life so confusing.

The format that includes regular chapters (Stevie's point of view), scripts (Alex's point of view), and notes from Joey's notebook (Joey is the youngest of the three sisters). This design allows the reader to see how differently each of the three sisters see the world around them and their various experiences. Having several sisters myself I found I could easily relate to Stevie and her sisters and the ups and downs of their relationships. It also brought back memories of my own middle school experiences, which I would not want to relive for anything (shudder, shudder).

Overall, this series provides some light reading for girls who are ready to move beyond the Judy Moody and Junie B. series. The first book in the series is *The Sisters Club*. Book two is called *The Sisters Club: Rule of Three*.

This was the 6th book I have read by Megan McDonald in less than two weeks. Each was an excellent read. The Sisters Club books are longer than either the Judy Moody or Stink Moody books. In fact there is a clear progression in length and difficulty of books from Stink, to Judy to Sisters. These stories revolve around a family with three daughters; I grew up the oldest of three boys and now have three children myself. I can only hope that as my children age, and we read these books together, they can learn from the Reel sisters.

This is a fun story in a great series. Two of the girls are starting to get older and with that comes the question of boys, relationships and first kisses. The play being put on in school this year is *Romeo and Juliette*, and Alex wants to play Juliette to Scott Howell's *Romeo*. But she does not get her wish. Then the play gets moved to the Raven, the town's theater and second home of the Reel girls. Stevie has a new fascination with weather and specifically clouds, and ends up working on a cloud project for science class with Owen, aka 'Wire Rims', as in his glasses. Joey is still fascinated with frogs and even has a hidden pet frog named Sir Croaks-a-lot.

This is a fun tale well worth reading. Give a Megan McDonald book a try; you will not be disappointed.

My 8 year old LOVED the sisters club. I don't love that this book was (obviously) about boys. I with

the sisters had kept lighter and not delved into the world of boys. These books are so cute and witty-but lets lose the boy obsession and just them them enjoy growing up!

This was a really good book this is the 3rd book from the series and you can't understand it unless you have read the first two books which are sisters club, and the rule of three, Anyway if you loved the other books this one is perfect for you I loved it and I'm nine, you can learn a lot if you have sisters I have two and we always fight I'm the youngest like Joey the youngest in the book.

In the beginning the power goes out and Alex the oldest wants to play a game, she tells her sisters to find something they love and throw into the fire make a wish and the wish will come true unless you show someone what your throwing in.
